In 2016 and 2017, a task force of current and former Alabama school board members, superintendents and board attorneys convened to explore ways to help board-superintendent teams work together effectively. As a result, the Alabama Association of School Boards and School Superintendents of Alabama are pleased provide this updated statement of the roles and responsibilities of school boards and superintendents. We believe that, operating within the parameters defined here, these teams can effectively promote equitable learning opportunities for all public school students. We further believe an enhanced understanding of the unique, interrelated functions of school boards and superintendents will lead to greater student achievement, increased accountability and better understanding of, and support for, public education.
